

FUN FACTS

ABOUT DOTHAN'S PEANUTS

- Approximately *HALF* of the United States peanuts are grown within a 100 mile radius of Dothan, Alabama.
- *DR. GEORGE WASHINGTON CARVER* saved the south's agriculture after the boll weevil destroyed all the cotton crops in the 1910s by introducing farmers to peanuts and their various uses, as well as proving the idea of rotating fields for better cultivation.
 - Nearly *HALF* of the annual crop of peanuts is used to make peanut butter.
- Annual production of peanuts averages *1.5 million TONS*, which often exceeds the production of beans and peas combined.
 - Peanuts are not a nut, they are a *LEGUME* and a member of the *PEA* family.
 - There are approximately *810 PEANUTS* in one 18oz jar of peanut butter.
 - *ONE ACRE* of peanuts will make 30,000 peanut butter sandwiches.
 - Two *PRESIDENTS* were peanut farmers - Thomas Jefferson and Jimmy Carter!
- There are four types of peanuts - Runner, Valencia, Spanish, and Virginia. *RUNNERS* are primarily grown in Alabama, and are what you find in all the fields.
 - The City of Dothan celebrates the peanut farmer and his harvest every November with the *NATIONAL PEANUT FESTIVAL*, a week-long fair.

- 31** The Peanut Producer
Alabama Peanut Producers - 1810 Reeves Street

EVERY NUT HAS A STORY

Mr. Trawick is a Dothan legend! Before Friend Bank bought the parcel of land it now sits on, Mr. Trawick sold boiled peanuts from the corner for years. When Friend Bank purchased the land, they promised Mr. Trawick he could continue selling from the corner, but Mr. Trawick passed away before construction was completed. Friend Bank erected their peanut in his honor, still wishing people well on their journey through Dothan.
